OBJECTIVE

4 years of agile and continuous integration development experience in web programming. Includes coding in JavaScript(React JS), HTML, CSS and team management by breaking tasks to smaller tasks, code review and bug fixes raised by clients.

WORK EXPERIENCE

Jan 2020 – Current

VERIZON, Hyderabad, India.

Project: Network Data Catalog.

Role: Senior Front-End Developer.

Description: The NDC application contains all Wireline & Wireless network data, be it performance, logs, tickets, alarms, or any other feed, on which data scientists and analysts can fetch requested data from existing metadata. Provided functionalities like bulky updating data through uploading sheets and provided role management screens to perform authentic operations (Supporting multirole functionality) by following certain coding standards

Accomplishment's:

- ⦿ Grasped good knowledge on Telecom domain.
- ⦿ Worked in building project from scratch and architecture design.
- ⦿ Gained experience in developing User Interface using JavaScript, ReactJS (**Functional Components**) and Redux.
- ⦿ Gained knowledge on third party library ag-grid and incorporated it in our application.
- ⦿ Exposure to complete Software Development Life Cycle.
- ⦿ Worked in adaptive environment of agile scrum methodology and played crucial role in quicker shipping of deliverable, at the same time, maintaining a high quality.
- ⦿ Coordinating with business team to understand requirements for creating High Level and Low-Level Designs.
- ⦿ Responsible for deriving smooth development by assisting the team members and guiding them in technical challenges.
- ⦿ Provided technical support at various testing phases like release and system testing.

July 2016 – Dec 2019

Tata Consultancy Services Ltd., Hyderabad, India.

Project: USAA

Role: Front End Developer,
Played an active role in migrating the Client's website from Java-based framework to ReactJS.

Accomplishment's:

- ⊙ Grasped good knowledge on Insurance domain.
- ⊙ Awarded with "On the Spot" award for putting extra efforts in learning new technologies and using them in enhancing the client application.
- ⊙ Gained experience in developing User Interface using JavaScript, ReactJS and Redux.
- ⊙ Exposure to complete Software Development Life Cycle.
- ⊙ Worked in adaptive environment of agile scrum methodology and played crucial role in quicker shipping of deliverable, at the same time, maintaining a high quality.
- ⊙ Coordinating with business team to understand requirements for creating High Level and Low-Level Designs.
- ⊙ Responsible for deriving smooth development by assisting the team members and guiding them in technical challenges.
- ⊙ Tested Rest API with SOAP UI.
- ⊙ Provided technical support at various testing phases like release and system testing.

EDUCATION

May 2016

GMR Institute of Technology, Srikakulam, India
Bachelor's in Computer Science

TECHNICAL SKILLS

- ⊙ Version Control : GitHub, GitLab.
- ⊙ Web Technologies : HTML, CSS, Bootstrap, JavaScript, ES6, ReactJS, React-Redux, Redux, Redux-Thunk, NodeJS, Express(novice), Core Java(novice)

PROJECTS

- ⊙ **Online Examination:**
Description: It is a website for students to write the exam and post their queries after the exam.
- ⊙ **i-can-not-REACT:**
Description: It is an open-source repository, consisting of articles on ReactJS, which are contributed by developers across the world. It's community-written React docs.

ACHIEVEMENTS & CERTIFICATES

- ⊙ Oracle Certified Professional, Java SE 6 Programmer Certification.
- ⊙ Scrum Team Member Accredited Certification.
- ⊙ Completed Internship in "GIT Solutions" in Vishakhapatnam on "core Java".
- ⊙ Secured 2nd place in Singing competition SAPTHA held in GMRIT.
- ⊙ Secured 1st place in Badminton conducted by KURKSHETRA in TCS.

PERSONAL TRAITS

- ⊙ Adoptive to environment, Good Grasping power and Self-driven.
- ⊙ Positive thinking, determination, time management and planning skills.

HOBBIES & INTERESTS

- ⊙ Socializing with friends and family.
- ⊙ Playing Badminton.
- ⊙ Singing.
- ⊙ Watching Web Series.
